Halogen-Free Single & Multi-Conductor Cables

- Reduce the amount of toxic and corrosive gases emitted during combustion
- No fire propagation at local flame influence
- Ensure functionality for important systems (i.e. emergency exit lighting)
- Typically used in poorly ventilated & highly populated areas
- In some cases a requirement, where the protection of people and equipment from toxic and corrosive gases is critical
- Applications: Elevators, Aircrafts, Schools, Rail cars, etc.

LS0H = Low Smoke
Zero Halogen
