Liquid Tight Strain Relief Fittings

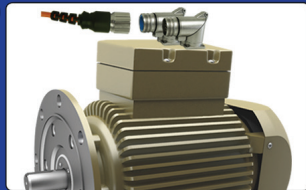

Materials: Nylon, Nickel Plated Brass, Stainless Steel, PVDF & more!
 Threads: NPT, Metric, PG & BSPP.
 Cable Range: 0.08 - 3.54" (2 - 90 mm)
 Large Inventory, Great quality and affordable prices.

Accessories

Locking Nuts, O-Rings & Seal Rings, Inserts (Standard, Reduced & Multi-Hole) Dome & Hex Plugs, Cable Clamp, Socket & Ratchet Wrenches, Thread Adapters, Reducers and Enlargers, etc.

Circular Connectors

Sizes: M16, M23, M27, M40
 Signal: 3 - 28 pins (8 - 20 Amps)
 Power: 6 & 8 pins (8 - 55 Amps)
 Types: Standard, Straight, Elbow, Panel, Push-Pull, Stainless Steel, Over-molded Solutions, RJ 45 Industrial Ethernet, Profinet. Applications: Robotic, Medical, Automation, Motion Technology, Packaging, Sensors, Renewable Energy, etc.

HELUKABEL

2D/3D CAD!

PVDF Fittings Teflon® & Nickel Plated Brass

- Temp. Range: -31°F to 302°F (-35°C to 150°C)
- Ideal for:
 - Food & Beverage Industries
 - Clean Room Applications
 - High Temperature Applications

Liquid Tight PVDF Fittings with Viton® form seals are your solution for extreme temperature applications and the chemical industry.

Stainless Steel Fittings 303 / 316 Stainless Steel

- Temp. Range:
 - w/ Buna-N O-Ring: -40°F to 212°F (-40°C to 100°C)
 - w/ Viton® O-Ring: -31°F to 302°F (-35°C to 150°C)
- Ideal for:
 - Off-shore
 - Marine
 - Chemical Plants
 - Food Processing
 - Clean Room
 - Rugged Applications

Stainless Steel Fittings can be used in many applications, where the environment dictates a corrosion-proof solution.

Another nice and economical solution for harsh environments is the Diamond Fitting, which is much more corrosion resistant than Nickel Plated Brass, but more cost-effective than Stainless Steel.

VFD / Servo Cables TOPFLEX-EMV-2YSLCY-J TOPFLEX-EMV-3PLUS-2YSLCY-J

- For power supply connections to frequency converters
- Used in automotive & food industries, environmental technology, packaging industry, industrial pumps, ventilators, conveyor belts and air conditioning installations
- Can be purchased with black jacket for outdoor use (UV-protection)

Reliable grounding and protection from electromagnetic interference!

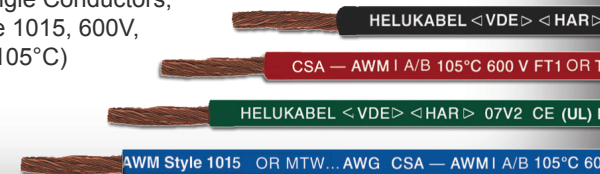

Works great with Sealcon's EMI-Fittings

Hook-up Wire: FIVENORM & THREENORM

- FIVENORM Approvals: HAR-UL-CSA-CE-AWM-MTW
- THREENORM Approvals: HAR-UL-CSA-CE
- PVC Single Conductors, UL-Style 1015, 600V, 221°F (105°C)

Cables & Wires

A one stop source for wires and cables requiring RoHS, UL, CSA, Harmonized & CE approvals. We offer cables for Power, Control, High/Low Temp., Hi-Flex, Robotic, Drag Chain, Servo, VFD, Composite, Ribbon, Data (CAT), Single Conductor, Etc!

Camozzi Pneumatics

Fittings & Accessories: Nickel Plated Brass & Composite, M5 [10-32 UNF] to 1/2" NPTF.
 Valves: Flow Regulators, Quick Release, Flow Control, Basic Logic Functions & Silencers
 Cylinders: Mini-Cylinders, Guided, Magnetic, Stainless Steel, Rodless, Rod Lock Cylinders, etc.

Our Service makes the Difference!

Setting Standards

Conduit System

Fittings: Push-in, Turn-to-Seal, Double-Seal, Combination Conduit - Cable Strain Relief Fittings, Flange/Bulkhead
 Corrugated Conduit: Standard & Superflex, Mounting Brackets

The Cable, Wire & Enclosure Experts!

Industrial Enclosures

Materials: Polycarbonate, ABS, EMI, Polyester, Polystyrene, Aluminum, Powder-coated Steel, Stainless Steel.

Features: Square/rectangle shape, Solid & transparent lids, Smooth walls or PG/Metric knockouts, Flanges, Extension Frames, Hinges & Latches.

Applications: Indoor/Outdoor, Medical, Offshore, Marine, Wi-Fi, Hazardous Areas, etc.
 Accessories: Mounting Plates, DIN Rails, Lugs, Clips, Screws, etc.
